August 2020

What's Been Happening?

July saw the return of many more of our children as well as some new children! Everyone has settled into nursery so well & have been busy enjoying lots of exciting experiences!

A big focus throughout July was plastic free month, clean beaches week & national marine life day. The children explored a variety of themed activities & talked about how we can keep our beaches clean & keep marine life safe.

We also celebrated Independence Day, making some wonderful firework creations and friendship day where we talked about our friends and what we like about them & how they make us feel.

We also said a sad farewell to some of our school leaver children who finished for the summer holidays but at least we will be able to celebrate their time in nursery at our upcoming virtual graduation ceremony.

Our Baby Bees children have been extremely busy exploring over the last month! They have enjoyed making marks in paint by dropping objects from a height, exploring themed tuff trays and also exploring different textures including foam, cloud dough and mud.

Room News (Honey Bees)

Our Honey Bees children have shown lots of interest in animals and construction themed activities over the past month. They have spent lots of time engaging in different animal themed activities and especially enjoy mimicking the sounds of the animals! They have also enjoyed exploring another one of their favourite places, the home corner, pretending to look after the baby dolls and make tea for their friends. Honey Bees have also welcomed a new friend to the room, Charlotte, we hope she has lots of fun with us.

Room News (Busy Bees)

Our Busy Bees children love cooking and baking at the moment! They could certainly give the master chef contestants some serious competition! They have made lots of wonderful creations including pitta breads, biscuits & pinwheels. They have become experts at following recipes and measuring out the correct amount for each ingredient needed.

Room News (Worker Bees)

Worker Bees have been busy perfecting their yoga & mindfulness skills. Each week when Laura comes, she teaches the children new poses and breathing techniques. They have also shown lots of interest in climbing and balancing, frequently using the climbing frame & working together to build obstacle courses to complete. Some of the children have been getting excited for their upcoming adventure of their new school in September. They have talked about their new teachers and uniform!

Children's Progress

MOST RECENT DATA ANALYSIS JUNE 2020

At our most recent analysis, great progress was made in all areas of development across the whole nursery. 7.5% of children across the whole nursery are above typical development in making relationships & 6% of children across the whole nursery are above typical development in listening & attention. There was a 6% increase in progress in managing feelings & behaviour in boys, an 8% increase in progress in health & self-care in girls & a 25% increase in progress in speaking in children with SEN. EAL children are developing typically in all areas as are children in receipt of 2 year funding. We have recently updated an action of plan of what we intend to implement in order to support the children in progressing further. You will also see parent challenges set by your child/ren's room & management in support of this.
